Nexans Ref.: N890.146

- Large gland
- Suitable for cable diameters 12-18mm
- To fit minimum aperture diameter 25mm

DESCRIPTION

The cable gland allows to fix cables with a diameter between 12mm and 18mm.

The cable gland fits in patch panels with a slot size of 25mm.

Typically there are 2 of those slots available in LANmark-OF Patch Panels.
